The journal is currently indexed/included in Bioline International, Chemical Abstracts Service, CINAHL, EBSCO Information System, Swets Information Services Turkey Citation Index and Index Copernicus.

## ORIGINAL ARTICLES

- Nasal Cycle Pattern Can Transform Into Another Form Over Time  
Tatar and Altas
- Clinical Profile in Hypokalemic Periodic Paralysis Cases Ventilation in Metal Arc Welders  
Kumar et al.
- Significant Alteration of Nitrogen Species in Acute Myocardial Infarction Does Not Relate to The Site of Infarction  
Al-Nimer and Alhusseiny
- Tear Film Osmolarity in Patients with Graves Ophthalmopathy  
Türkyılmaz et al.
- Length Difference of Anteromedial and Posterolateral Bundles of Anterior Cruciate Ligament in Flexion and Extension (Cadaver Study)  
Çayır et al.
- Rhinomanometric Assessment of The Impact of High Altitude on Nasal Airway Resistance  
Karatas et al.
- Antibiotic Susceptibility of Group A B-Hemolytic Streptococci Isolated From Tonsillar Swab Samples in 5-15 Years Old Children  
Doğan et al.
- The Anomalies of Systemic Venous Connections in Children with Congenital Heart Disease  
Arslan et al.

## CASE REPORTS

- A Child With Morphea in a Zosteriform Distribution  
Öztürk and Çıralık
- A Rare Cause of Constipation and Acute Malnutrition: Primary Intestinal Lymphoma  
Özdemir et al.
- Osteophyte Arising From The Cricoid Cartilage Causing Dysphagia  
Batur et al.
- Vancomycin-resistant Enterococcus Ventriculitis in a Child  
Kıymaz et al.
- Pulmonary Mucormycosis  
Showkat et al.
- What is Important in The Diagnose of Orbital Varix?  
Asal et al.

## LETTER TO THE EDITOR

- Robotic Thyroidectomy and Infection  
Buyukbese Sarsu et al.

## BRIEF REPORT

- Right Flank Pain in a Man: Renal Stone or Needle in the Liver?  
Başar et al.

*An International Peer-Reviewed Journal in the Field of General Medicine*

[www.ejgm.org](http://www.ejgm.org)

## Aims and Scope

EUROPEAN JOURNAL of GENERAL MEDICINE (ISSN 1304-3897 ) is an English multidisciplinary peer-reviewed medical journal publishing articles in the fields of general medicine. EUROPEAN JOURNAL OF GENERAL MEDICINE is published quarterly (January, April, July and October) by the Society of Health Sciences Researchs, Turkey.

EUROPEAN JOURNAL of GENERAL MEDICINE encourages submissions from all authors throughout the world. Manuscripts are judged by two experts solely on the basis of their contribution of original data, ideas and their presentation. All manuscripts must comply with Instructions to Authors. The following articles will be considered for publication: editorials, original and review articles, brief reports, case reports, letters to the editor, and book reviews.

Submitted manuscripts must not have been published, accepted for publication or be under consideration elsewhere. Investigation on human subjects should conform to the guidelines noted in the World Health Organization Chronicle 1976; 30: 360-362.

All articles will be critically reviewed by the editor and members of the editorial or advisory board of the journal within 2 months, but longer delays are sometimes unavoidable. Full details may be found in the section of Instructions to Authors at the end of this issue.

The free-full text of the journal is available from online system. Please visit the journal website ([www.ejgm.org](http://www.ejgm.org)).

Indexing and Abstracting Services: The journal is currently indexed/included in Bioline International, EBSCO, CINAHL, Scopus, EMBASE, Index Copernicus, Swets Information Services, TUBITAK ULAKBIM Turkish Medical Database, Turkey Citation Index and Chemical Abstracts Service.

## INSTRUCTION TO AUTHORS

MANUSCRIPTS are received with the understanding that they are submitted solely to THE EUROPEAN JOURNAL OF GENERAL MEDICINE®, that upon submission, they become the property of the Publisher, that the work has not been previously published, and that the data in the manuscript have been reviewed by all authors, who agree with the analysis of the data and the conclusions reached in the manuscript. The Publisher reserves copyright and renewal on all published material, and such material may not be reproduced without the written permission of the Publisher. Statements in articles are the responsibility of the authors. Only papers in English will be considered for publication.

**ADDRESS MANUSCRIPTS TO:** Manuscripts should be submitted online at [www.ejgm.org](http://www.ejgm.org).

Please include the corresponding author's e-mail, phone and fax number. The cover letter should state the significance and uniqueness of the work in the authors' view. Several names and addresses of nonlocal experts may be suggested who, in the authors' view, could provide objective and informed reviews of their work. The names of investigators considered unlikely by the authors to give nonbiased reviews of their work also may be submitted. This request is honored.

## INFORMED CONSENT AND ETHICS

When reporting studies on human subjects, notice whether the protocols were in accordance with the ethical standards of the related committee on human experimentation (regional or institutional) or with the 1975 Helsinki Declaration (including 1983 revision). Include any Ethical Committee or Animal Ethics Committee protocol numbers as warranted by experimental design.

**Arrange the paper as follows:** (1) title page, which should include the title, the full names and academic degrees of the authors, and the institution and city and state or city and country from which the work originated; (2) second title page, with only the title of the article (page not numbered); (3) abstract; (4) text; (5) acknowledgment; (6) references; (7) figure legends;

(8) Number the title page as 1, abstract page as 2, and so forth. (Leave the second title page) Type on 22 X28 cm (8.5 X11 inch) paper, on 1 side only of each sheet, double-spaced (including references) with at least 25-mm (1-inch) margins.

The second title page, which omits the names and institutions of authors, gives the Editor in Chief the option of acquiring blinded or nonblinded reviews. References to the institution in the text or to the author's previous work in the Reference section must be deleted or written in a manner that prevents identification of authors and institution. Label figures with the manuscript title rather than the authors' names so that blinded reviews can be solicited. Authors should state which type of review they wish in the cover letter.

**TITLE PAGE AND ABSTRACT:** For the **complete title page**, include the full first or middle and last names of all authors. List the institution and address from which the work originated, and provide information about grant support if necessary. If work described is supported by a grant from a pharmaceutical company, that fact should be stated on the title page. Add at the bottom the phrase, "Address for reprints:" followed by full name and address with zip code. Add a **2- to 5-word** running head. Limit the **abstract** to 200 words. List **3 to 5 key words** for subject indexing at the end of the abstract or Brief Communication.

**STYLE:** Use appropriate **subheadings** throughout the body of the text, such as Methods, Results, and Discussion. **Tables, figures, and references** should be mentioned in numerical order throughout manuscript. **Abbreviations** are permitted, but no more than 3 per manuscript, and then they must be used on every page of the manuscript after they are initially spelled out (followed by the abbreviation) in both abstract and introduction. Abbreviations are usually limited to terms in the manuscript's title. Use generic names of drugs. Do not spell out any number, including those less than 10, except when used for opening a sentence, but try not to begin sentences with numbers. Use symbols for less than (<), greater than (>) and percent (%). Indent paragraphs except the first one in both abstract and introduction. Consult the Uniform Requirements for Manuscripts Submitted to Biomedical Journals, published in *N Engl J Med*

# EUROPEAN JOURNAL of GENERAL MEDICINE

*An International Peer-Reviewed Journal in the Field of General Medicine*

[www.ejgm.org](http://www.ejgm.org)

1991; 324: 424-428.

**TRADE NAMES** Non-proprietary (generic) names of products should be used. If a brand name for a drug is used, the British or International non-proprietary (approved) name should be given. The source of any new or experimental preparation should also be given. **REFERENCES:** References should be limited to those relating directly to the content of the paper. List all authors, year, volume, and inclusive pages for all journal references, and specific page numbers for all book references as shown below. Do not use periods after authors' initials or after abbreviations for titles of journals. Check Index Medicus or N Engl J Med 1991;324:424-8 as cited above for journal titles and abbreviations. Personal communications and unpublished observations do not constitute references, but may be mentioned within the text. Please note that all authors should be listed when six or less; when seven or more, list only the first three and add et al. Please do not use the footnote or endnote functions in your word processing program.

**Journal:** Vikse BE, Aasard K, Bostad L, Iversen BM. Clinical prognostic factors in biopsy-proven benign nephrosclerosis. Nephrol Dial Transplant 2003;18:517-23.

**Chapter in Book:** Davison AM, Cameron JS, Grünfeld JP, Kerr DNS, Ritz E, Winerals CG. Oxford Textbook of Clinical Nephrology. In Williams G, ed. Mesangiocapillary glomerulonephritis. New York: Oxford University Press, 1998: 591-613.

**Book:** Danovitch GM. Handbook of Kidney Transplantation. Boston: Little, Brown and Company (Inc.), 1996: 323-8

**FIGURES:** Patients shown in photographs should have their identity concealed or should have given their written consent to publication. Submit written permission from the publisher and author to reproduce any previously published figures. Limit figures to the number necessary to present the message clearly. Do not use 3-D features and unnecessary gray shadings on simple bar charts. Identify at the end of each legend and in alphabetical order all abbreviations in the figure. The cost of color reproduction must be paid by the author.

**TABLES:** Place each table on a separate page, typed

double-spaced. Number each table in Arabic numerals (Table 1, 2, etc.) and title each table. Identify in alphabetical order at the bottom of the table all abbreviations used. When tabulating numbers of patients, use no more than 2 lines, preferably only 1 line, per patient. Use a plus sign (+) to indicate "positive" or "present," a zero (0) for "negative" or "absent," and a dash (-) for "no information available" or "not done." Do not use "yes" or "no" or "none." Footnote symbols must appear in this order: \*, \*\*, #, ¶, †, ‡, §, ||, †† etc.

**BRIEF COMMUNICATIONS and CASE REPORTS:** These should be limited to no more than 3 text pages (those before the references but including the title page) and 20 references. An abstract is not required. Subheadings are not used. Provide a summary sentence at the end.

**READERS' COMMENTS:** The author who submits a "letter" should provide a cover letter on his/her own stationery to the Editor in Chief stating why the letter should be published. The letter (as well as references) should be typed, double-spaced, on a separate sheet of plain white paper and limited, with few exceptions, to 2 pages. Submit the original and 2 copies. A title for the letter should be provided at the top of the page. At the end of the letter, the writer's full name, city, state and country should be provided. The author's title and institution should not be included. A letter concerning a particular article in the *Journal* must be received within 3 months of the article's publication.

**REPRINTS:** Price schedules and order cards for reprints are mailed to the author upon publication of the article. Individual reprints must be obtained through the author.

**PERMISSIONS:** All inquiries regarding copyright material from this publication should be directed to Health Sciences Researchs Society
